APPEAL FOR A DEFIBRILLATOR FOR ALL SAINTS

A defibrillator is a piece of equipment that can be used by anyone to help someone who is having a heart attack. Several user groups have asked Christina whether we have a defibrillator on site and it would also seem to make sense to have one available for the church family. The technology is both tested and available. No special training is necessary, the equipment tells you what to do, and won't work if it is not needed. David Cottier has very graciously used his contacts in the medical equipment world to find us an extremely good unit at a price that cannot be beaten! We estimate that we will need a budget of £2k to buy the unit, install it and run a power supply to keep it charged. If you would like to support this project to provide a defibrillator for All Saints please mark your donations "defib" and give them to Roy, Christina or myself.

Thank you,
Steve Tynegate
